

Make Your Own Edible PEEPS Play Dough Treat

For one child:

3 Peeps

1 Tablespoon of Coconut Oil

3 Tablespoons of Powdered Sugar (and some more for dusting)

Microwave the peeps and the coconut oil for 10 seconds, just enough to watch the peeps "grow" with the heat. Add the powdered sugar and stir. As you stir in the bowl, the dough should begin pulling away from the edges of the bowl. Lightly dust your dough with powdered sugar and work out any additional lumps in dough with your hands.
