

Thoughtful Flower Pot

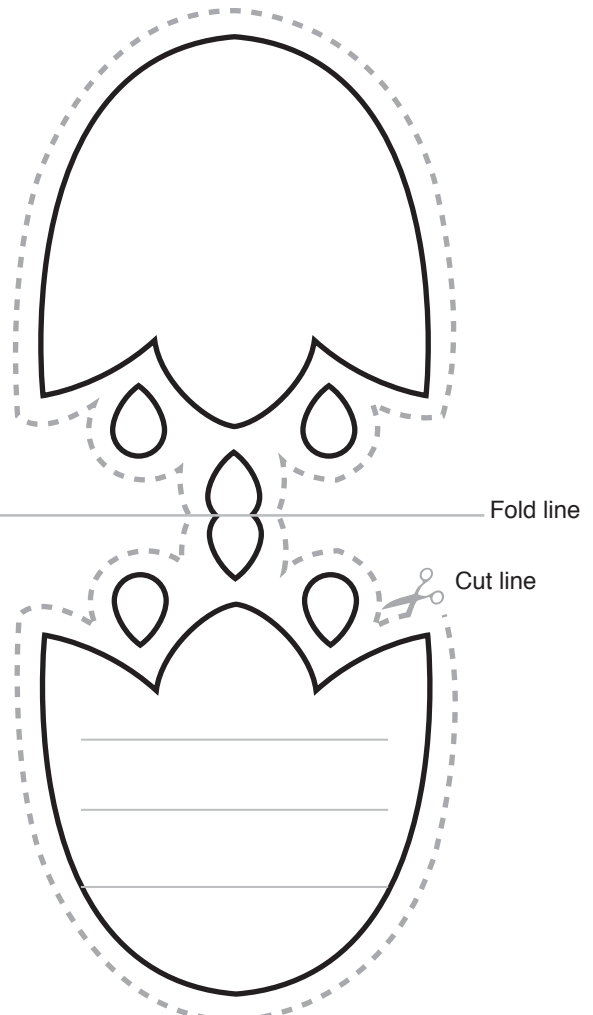

Directions:

Print the images on a printer. Color with crayons, magic markers or colored pencils. In the flowers, tell your loved one exactly why you love them! Once you complete everything, cut out on the dotted line. Fold flowers in half on the fold lines. Paste or glue where indicated. Then let it dry. Now you have a Thoughtful Flower Pot to give someone special. Good news: You can print as many flowers and pots as you like – and give Thoughtful Flower Pots to as many loved ones as you wish.

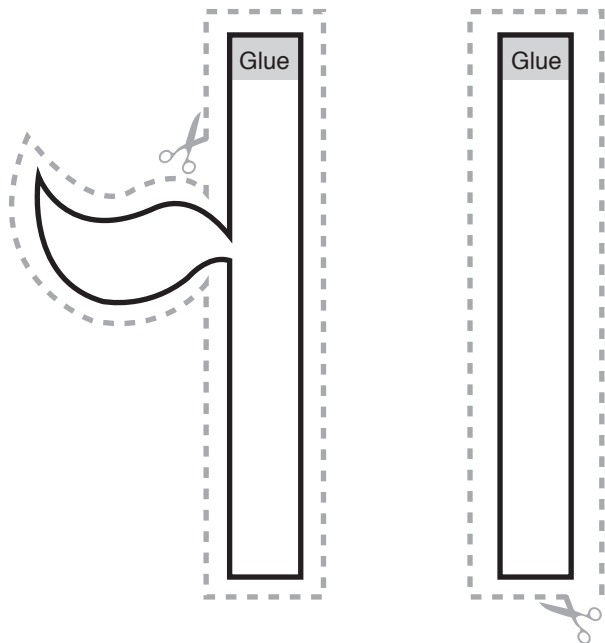

Glue Back of flower to top of stem

Glue Back of flower to top of stem

Glue back of stem to top of flower pot as shown in picture
